

INVINCIBLE COLLIERY

Monthly Environmental Monitoring Data

for

Castlereagh Coal

1 INTRODUCTION

Castlereagh Coal owns and operates Invincible Colliery located near Cullen Bullen in the Central West district of New South Wales. This report has been prepared pursuant to Chapter 2, Part 3.5, Condition 66(6) of the Protection of the Environment operations Act 1997 for the publication of results of monitoring and the NSW Environmental Protection Authority guideline titled Requirements for publishing pollution monitoring data (2013).

2 ENVIRONMENTAL PROTECTION LICENCE DETAILS

Licensee: Shoalhaven Coal Pty Ltd

Address: Invincible Colliery, Castlereagh Highway, Cullen Bullen, NSW 2790

3 ENVIRONMENTAL PROTECTION LICENCE DETAILS

3.1 DEPOSITIONAL DUST

All depositional dust sampling locations were in compliance with the rolling annual average limit (4 g/m² /month) for the period August 2025 to July 2026. The maximum annual increase in deposited dust levels is also below the criteria limit of 2 g/m² /month.

Depositional dust monitoring results are presented in **Table 1**.

Table 1: Depositional Dust Monitoring Results: July 2026

Obtained: 08/07/2026 Published: 08/07/2026		Premise: Invincible Colliery Licensee: Shoalhaven Coal Pty Ltd EPL Number: 1095 Exposure Period: 28 days		
Sampling Point	Start Date	End Date	Insoluble Solids (g/m ² /month)	Rolling Annual Average (g/m ² /month)
ID-D1 (EPA Point 3)	03/06/2026	01/07/2026	0.6	1.033
ID-D2 (EPA Point 4)	03/06/2026	01/07/2026	2.0	0.992
ID-D3 (EPA Point 5)	03/06/2026	01/07/2026	0.4	1.508
ID-D4 (EPA Point 6)	03/06/2026	01/07/2026	0.5	0.958
ID-D5 (EPA Point 7)	03/06/2026	01/07/2026	1.5	0.833
ID-D6 (EPA Point 8)	03/06/2026	01/07/2026	0.7	1.325
Annual Average Limit				4.0

Required Frequency: Monthly - exposure period 30 ± 2 days

3.2 PM₁₀ AND TSP

The 24-hour maximum PM₁₀ particulate matter concentration less than 10 microns (PM₁₀) criterion of 50 µg/m³ was not exceeded during July 2026.

The TSP and PM₁₀ annual rolling average results were calculated with the available data for the period of August 2025 to July 2026.

The average values were less than the annual average EPL limit as presented in **Table 2**.

Table 2: High Volume Air Sampler Monitoring Results: July 2026

Obtained: 08/07/2026 Published: 08/07/2026		Premise: Invincible Colliery Licensee: Shoalhaven Coal Pty Ltd EPL Number: 1095		
Sampling Point	Run Date	PM10 (µg/m³)	PM2.5 (µg/m³)	TSP (µg/m³)
HVAS1 (EPA Point 3)	5/7/26	10	5	13
	14/7/26	9	4.5	22.7*
	18/7/26	7	3.5	17.5*
	23/7/26	9	4.5	22.5*
Rolling Annual Average (Calculation period August 2025 to July 2026)		10	5	22
24 Hour Limit		50	25	--
Annual Average Limit		30	8	90

Required Frequency: Weekly – High Volume Air Sample run events occur every six days for 24 hours.

-- No Limit

*Estimates due to machine outage

4 SURFACE WATER QUALITY

A discharge event is deemed to occur when water leaves the site either through the overflow channel of the Main Dam or as a result of actively pumping water. No discharge occurred from the Main Dam Discharge Point 2 (LD002) during July 2026. A monthly sample was collected from the Main Dam for due diligence purposes only.

Water quality results are presented in **Table 3**.

Table 3: Discharge Water Quality Results – July 2026

Sampled:	29/07/2026	Premise:	Invincible Colliery	
Obtained:	13/08/2026	Licensee:	Shoalhaven Coal Pty Ltd	
Published:	19/08/2026	EPL Number:	1095	
Sampling Point	Frequency	Pollutant	Discharge Limit	Sample Concentration
Main Dam (EPA Point 2) Due Diligence Sample (Non-Discharge)	Monthly	pH (pH unit)	6.5 – 8.5	7.4
		TSS (mg/L)	30	13
		Oil & Grease (mg/L)	10	<5
		Conductivity (µs/cm)	650	840
		Cobalt (dissolved) (mg/L)	0.0014	<0.010
		Copper (dissolved) (mg/L)	0.0014	<0.001
		Manganese (dissolved) (mg/L)	1.9	0.930
		Nickel (dissolved) (mg/L)	0.011	0.022
		Iron (Total) (mg/L)	0.3	0.580
		Zinc (Total) (mg/L)	0.008	0.100

5 NOISE LIMITS

Attended noise monitoring is required to be undertaken on a quarterly frequency. Noise Monitoring reports for previous quarters are available on the Castlereagh Coal website: <https://ccoal.com.au/environmental-reporting-compliance/>

6 BLASTING

No blasting was undertaken during July 2026.

7 DISCLAIMER

This report is considered accurate at the date of issue with regard to current environmental conditions. Monitoring results may vary from those presented in this report following further assessment. This report must not be reproduced except in full. Results or figures from this report must not be used without acknowledgment.

Yours Faithfully,

CASTLEREAGH COAL
